SUMMARY

Aspiring Data Scientist | Machine Learning & Data Analytics Enthusiast , Computer Science graduate with hands-on experience in AI Content Moderation, data analysis, and machine learning. Skilled in Python, SQL, Pandas, NumPy, Matplotlib, Seaborn, Plotly, and Streamlit, with practical experience in data cleaning, exploratory data analysis (EDA), data visualization, and building interactive dashboards.

SKILLS

Programming : Python

Libraries : Pandas, NumPy, Matplotlib, Plotly

Data Analysis : Data Cleaning, Data Visualization, EDA, Statistical Analysis, ETL Basics

Databases : SQL (Joins, Group By, Subqueries)

Tools : Microsoft Excel (Pivot Tables, XLOOKUP), Power BI, Streamlit

Web Scraping : Selenium, BeautifulSoup, APIs

Version Control : Git, GitHub

EXPERIENCE

Innodata | AI Content Moderation Jul 2026

- Evaluated **chart and image-based data** to support the training and evaluation of AI/ML models.
- Annotated and classified visual content based on predefined **data quality, relevance, and accuracy criteria**.
- Reviewed charts, graphs, and tabular visuals to identify inconsistencies and provide structured feedback for **AI model enhancement**.

Data Analyst (Self-Initiated Projects) Jan 2026 – Present

- Performed end-to-end data analysis on real-world datasets using Python, SQL, and Excel
- Cleaned, transformed, and analyzed datasets with 10,000+ records to extract actionable insights
- Built interactive dashboards using Power BI and Streamlit for data visualization
- Conducted EDA to identify trends and support data-driven decision-making

PROJECTS

StartUp Insight Analysis Dashboard | Python, Streamlit, Pandas, Plotly

- Built and deployed a **Startup Funding Dashboard** analyzing **2,451 startups ,2400 investors ₹3.49 Lakh Cr total funding**, identifying key investment patterns
- Performed **time-series analysis**, revealing **2017 as the peak funding year (₹9,553+ Cr)** and **August 2019 as the highest funding month (₹4,059+ Cr)**
- Identified **Rapido Bike Taxi as the highest funded startup (₹35,724 Cr)**
- Analyzed total funding of **₹3.49 Lakh Crore**, identifying **E-commerce as the top-funded sector (₹72,222+ Cr)** and **Bengaluru as the leading investment hub (₹1.69 Lakh Cr)**
- Computed key metrics including **average funding of ₹142 Cr per startup** and maximum single funding of **₹35,724 Cr**, enabling quick business insights

E-commerce Customer & Revenue Analysis | PowerBi , SQL

- Analyzed 3900 customer shopping data using **SQL and Python (Pandas, Matplotlib)** to identify key revenue drivers and behavioral patterns
- Computed core KPIs including **Total Revenue, Total Orders, and Average Order Value (AOV)** to evaluate business performance
- Performed **category-wise revenue analysis**, identifying top-performing segments contributing the majority of sales
- **Insights :**
  - large majority of customers (73%) are non-subscribers, indicating a **high opportunity to convert users into loyal members**.
  - Clothing alone contributes **~45–50% of total revenue**, making it the primary revenue driver.
  - Young Adults are the **most valuable customer segment**
  - Demand is fairly distributed but slightly skewed toward younger users

Edge Fashion Analysis | Python, Streamlit, Pandas, Plotly

- Built and deployed an interactive **fashion analytics dashboard** using Python and Streamlit to analyze 8+ fashion categories and identify product trends.
- Performed **data cleaning, EDA, category-wise analysis, and interactive visualization** using Pandas and Plotly.
- Implemented dynamic filters and charts to present fashion insights through an easy-to-use analytical interface.

EDUCATION

University Of Delhi (SGGSCC) 7.17 CGPA
BSc (Hons) Computer Science New Delhi • 2021 – 2024

Kendriya Vidyalaya Chandrapura (CBSE) 95.4 %
Intermediate (Science) Chandrapura • 2019 – 2021

Kendriya Vidyalaya Chandrapura (CBSE) 93.8 %
Matriculation Chandrapura • 2019
